Corsair Rimfree WCs offer an original technical solution to optimize cleaning and to guarantee more hygiene and practicality. The internal part of the WC is perfectly clean due to the elimination of the rim, that allows users to save time and water, thanks to a controlled flush.

MIXERS

With the Vast Range of BAGNODESIGN mixers we wish to ensure that the chosen product is designed to be compatible with your household water system pressure.

HP - 2.0+

(High Pressure) products can only be used in HP systems only

MP - 1.0-1.5

(Medium Pressure) products can be used in MP and HP Systems

LP - 0.2-0.5

(Low Pressure) products can be used in LP, MP and HP Systems

The pressures allow us to calculate the minimum required Litres/min required for the mixers to function at optimum performance.

4 L/min – Basin Mixers

10 L/min – Bath Mixers

8 L/min – Shower mixer

5 L/min – Handshowers

8 L/min – Rainshowers

Please use this guide to help you but please run the details of any items past your plumbing professional before purchasing.

AQUAECO flushing solutions

- **More space:** Since concealed cisterns are built into the wall; they free up a considerable amount of bathroom space that would otherwise have been taken up by the cistern.
- **State-of-the-art technology and durability:** the AQUAECO range of concealed cisterns boasts high-tech working parts to ensure trouble-free operation. All cisterns are WRAS tested and approved.
- **Design freedom:** Homeowners and designers can pair their choice of actuator or flush plate and wall-hung or floor-standing toilet pan to perfectly complement their bathroom's particular style and design.
- **Easy to clean and hygienic:** Concealed cisterns and wall-hung WC pans provide the ideal easy-to-clean and optimum hygiene solution – no obstacles to clean around or cisterns to clean under.
- **Good for the environment:** All AQUAECO cisterns contain a dual-flush mechanism, helping to reduce running costs by saving water – using as little as two litres of water for a half flush.
- **Noise reduction:** Since the cistern is built into the wall, any noise created by the process of flushing is significantly reduced, making this an ideal solution for en-suite bathrooms. This is also a key in any hospitality requirement.
- **Strength:** All AQUAECO cistern frames are designed and built to support up to 400 kg in weight.
- **Warranty:** All AQUAECO cisterns come with an impressive 10 year warranty.
