ReflexKOLO COATING

Your bathroom is a place, which is especially exposed to dirt because of its natural humidity and warm environment. Hence it is necessary to think from the start about maintenance in an easy way without wasting your time.

droplets on a standard surface

SMOOTH APPEARANCE

The reason for the dirt accumulation - is porous hollows which cover smooth-looking surface. There are accumulated remnants of soap, grime and bacteria.

PERFECT COATING

A characteristic feature of such surfaces is that water droplets can easily be connected to larger and quickly flow down along with the dirt.

FINE FIRE-CLAY PROCESS TECHNOLOGY OF LARGE CAPABILITIES

As the first in Europe to use the latest technology, fine fire-clay, which allows us to produce ceramics of significant large size with flat surfaces – precise and beautiful as never seen before. Now washbasins with countertops can be admired with even greater precision of performance.

CERAMICS KOLO STYLE AND FUNCTIONALITY

For over 50 years, the brand Kolo has become synonymous with stylish and comfortable bathrooms. Our experience in the stylish combination of form and functional technological solutions allows you to create unique ceramics for any bathroom, regardless of its size and type.

Collaboration with world-class designer - Antonio Citterio led to create a truly advanced Ego series, which from 2003 to the present is an icon of modern industrial design.

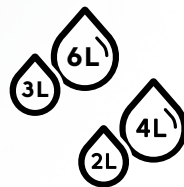

Today we are a company that pays special attention to a stylish contemporary design, combined with the functionality of the bathroom and effectively provides for the needs of its customers.

KOLO ceramic products received the status of **"The Product with attestation"**. This is a successive proof of our care for the clients safety

Soft-close system in seats provides comfort and safety of use.

Economical flushing 6/3 l or 4/2 l allows the user to save water.
