TANKLESS TECHNOLOGY LESS IS MORE

This is a world first. A toilet that eliminates the tank and works completely without electricity, saving you space and the world resources. Thanks to our patented VACUUM V FLUSH that is integrated into the ceramic, Primus is really the first of its kind - and it only uses 5l per flush. Primus also features a silent seat and our Easy Clean glaze that makes cleaning it a breeze.

AQUAECO Flushing Solutions

- **More space:** Since concealed cisterns are built into the wall, they free up a considerable amount of bathroom space that would otherwise have been taken up by the cistern.
- **State-of-the-art technology and durability:** The AQUAECO range of concealed cisterns boasts high-tech working parts to ensure trouble-free operation. All cisterns are WRAS tested and approved.
- **Design freedom:** Homeowners and designers can pair their choice of actuator or flush plate and wall-hung or floor-standing toilet pan to perfectly complement their bathroom's particular style and design.
- **Easy to clean and hygienic:** Concealed cisterns and wall-hung WC pans provide the ideal easy-to-clean and optimum hygiene solution - no obstacles to clean around or cisterns to clean under.
- **Good for the environment:** All AQUAECO cisterns contain a dual-flush mechanism, helping to reduce running costs by saving water - using as little as two litres of water for a half flush.
- **Noise reduction:** Since the cistern is built into the wall, any noise created by the process of flushing is significantly reduced, making this an ideal solution for en-suite bathrooms. This is also a key in any hospitality requirement.
- **Strength:** All AQUAECO cistern frames are designed and built to support up to 400 kg in weight.
- **Warranty:** All AQUAECO cisterns come with an impressive 10 year warranty.

dyson airblade wash+dry

**Airblade™ hand drying
technology in a tap.**

**Wash and dry
hands at the sink.**

With Airblade™ technology in a tap, hands can be dried at the sink in just 14 seconds.* There's no need to move to a separate drying area, so no water is dripped on the floor.

To experience the latest Dyson
Airblade Wash+Dry hand dryer visit:
www.aquazone.ae

*Dry time measured using Dyson test method 769 based on NSF P335 using a measurement of 0.1g residual moisture.

WATER SAVING & SAFETY

AQUAECO

Anti-Scald Device
Pressure Limiter
Water Saver

Anti-Scald Device for Shower
Thermostatic Temperature Detector
Automatically Closes when Water
Temperature Exceeds 48°C
Available in Chrome and
Brushed Nickel
AQP-ECO-580-

The AQUAECO anti-scald device will maintain a safe temperature of hot water for appliances, a must for young children, the elderly and those requiring care.

By installing this device, the risk of scalding will greatly be reduced due to the automatic temperature detection, ensuring that when the water becomes too hot, the flow of water will stop.

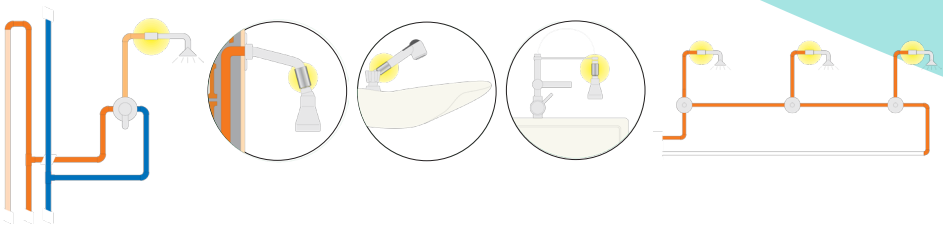

After reaching a safe temperature the device will re-activate.

- Thermostatic temperature detector.
- Chrome brass body.
- Water flow is blocked if temperature goes above 48°C.
- Self reactivation when the temperature decreases.

APPLICATIONS:

In Home Showers, Kitchen Mixers, Hospitals etc.

FINISHES:

CP
Chrome

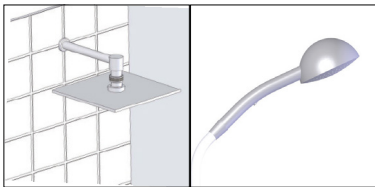

NB
Brushed
Nickel

Pressure Limiter
Limits the Downstream Pressure to 1 Bar
Ideal for Shower Hoses/Heads and Bidet Sprays
Available in Chrome, Bronze, Brushed Nickel,
Gold, Brushed Copper, Matt Black & Zanzibar
AQP-ECO-590-

PRESSURE LIMITER APPLICATIONS:

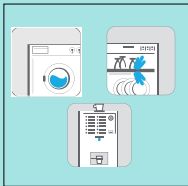

Shower heads/handles

- Protection against excess pressure load due to clogged nozzles or high line pressure

Bidet Sprays

- Protection against overpressure and water hammer
- May ease operation

Other Applications

WATER SAVING SOLUTIONS

- Reduce your water consumption considerably using AQUAECO's range of aerators and connection fittings with flow-limiting devices from Neoperl.
- Minimal effect to the function of the mixer or shower; does not hamper performance.
- Installing flow-limiting devices can result in a 40-50% cut in water consumption.
- AQUAECO offers various types of reducers from Neoperl, detailed below.

Flexi Washer Flow Regulator
Suitable for Flexi Tails or Flexible
Hoses and Shower Heads
(Female Thread)

Flexi Insert Flow Regulator
Suitable for Hand Showers, Bib Taps
and Shower Arms
(Male thread)
